

## SUMMARY SCHOOL DEVELOPMENT PLAN 2021-22

	Area	Essence
1	Vision	<p>Our vision is to be among the best schools in this country – state or private. FBS is in fact a third way. We have an unwavering commitment to strict discipline and firm boundaries: in school, to and from school, uniform and appearance, attendance and punctuality. Standards! Standards! Standards!</p> <p>Academically strong, excelling on the sports field and the arts are thriving.</p> <p>We want to be at the heart of the community and the pride of Fulham.</p> <p>Our parents are active and engaged.</p> <p>We believe in our vision and ethos and are determined to influence the educational landscape nationally and globally</p> <p>FBS is more than just a school.</p>
2	Teaching and Learning	<p>Teaching and Learning is at the heart of the school. Lessons are taught by teachers who know how to bring out the best in boys. Our teachers are experts in the subjects they teach. They regularly check the understanding of all boys in their subjects. All boys are literate and numerate. We have a library built for boys which boys are encouraged to use. #RealMenRead</p>
3	Curriculum	<p>As a free school we are freed from the National Curriculum and we embrace that freedom to really gear our curriculum towards boys, equipping them for the rigours of GCSEs and A Levels and preparing them for Russell Group and Oxbridge Universities. Our teachers make clear, and our boys understand, what they are being taught, why they are being taught it ,and how well they are understanding it.</p>
4	Christian Faith	<p>FBS is a school built on the Christian Faith. Boys are able to consider, evaluate and respond to the claims of Jesus Christ and the message of the Bible. Boys of no faith and other faiths feel welcome at FBS.</p>
5	Enterprise and Cocurriculum	<p>We nurture enterprise – social, personal and business. Enterprise skills are developed in all lessons. Our boys engage in a range of social enterprise activities. Many of our boys achieve the FBS Enterprise Award. Our boys don't do enterprise, they are enterprising.</p> <p>We have a rich and exciting co-curriculum providing activities to develop well rounded young men. All boys try out new things. We make the most of London as our classroom. Fulham Boys boys act, dance and sing. All our boys are fit and healthy, find at least one sport they enjoy whilst at the same time developing elite sportsmen and winning teams especially in our core sports of rugby, football, cricket and rowing.</p>
6	Reducing Gaps	<p>All boys make outstanding progress irrespective of their background, ability and individual needs.</p>
7	ARR and R&D	<p>We know boys as individuals, set them ambitious targets and monitor their progress closely. Our boys respond to feedback and know how to improve. Teachers use data to adapt their teaching practice. Parents understand the progress data and know how to support their son in school. We have a rigorous Review and Development programme in place and self evaluation effectively drives school improvement. Governors understand the data and hold the school to account.</p>
