COVID-19 Risk Plan

Last Updated Tuesday 14th September 2021

Updates to the Risk Plan since previous update 17th August 2021:

- 2.6
- 2.7
- 2.8

1. Introduction

- 1.1. Below is The Fulham Boys School's plan for all pupils and staff in the light of the latest Government CID-19 guidelines August 27th 2021 [Here](#)
- 1.2. We have kept uppermost in our minds:
 - 1.2.1. Boys' physical and mental health and wellbeing
 - 1.2.2. Staff physical and mental health and wellbeing
 - 1.2.3. Progress and Attainment
 - 1.2.4. Protecting the school's distinctive and strong ethos
 - 1.2.5. The health and safety of the general public
 - 1.2.6. Slowing down the spread of the virus
 - 1.2.7. Being true to our Christian ethos
 - 1.2.8. Being Enterprising
- 1.3. In line with the government guidelines, school attendance is mandatory for all pupils
- 1.4. We encourage boys, parents and staff to get in touch with the school if they are at all anxious and we will seek to provide reassurance on the measures we are putting in place to reduce any risks. We strongly encourage you to contact the school and not to raise concerns on Whatsapp groups.
- 1.5. Every time the plan is updated it will be shared with staff and parents via email and updated on our website.
- 1.6. The original plan was shared with staff, boys and parents w/b 6th July 2020 and put on our website.
- 1.7. The plan has been approved by Governors.

2. How the school will operate

- 2.1. Students will no longer be in year group bubbles. We will revert fully to our vertical house system including lunchtimes, breaktimes, assemblies and registration.
- 2.2. The school will return to 'normal'. Including residential trips and visits, music and drama, sport, co curriculum, lunchtime clubs and societies.
- 2.3. Students will no longer be able to wear face coverings in school: in lessons, dining hall, corridors, or outside.
- 2.4. Staff will not be expected to wear face coverings in lessons, communal areas or when moving around the school
- 2.5. Face coverings are still required on public transport.
- 2.6. Pupils will be given lateral flow tests to take home every week and will be encouraged to take them.

- 2.7. Lateral flow tests will be available to staff to take twice weekly.
- 2.8. The school will offer vaccinations to all our pupils aged 12-15. Parents will need to give written consent to this. The vaccinations will operate very similarly to other vaccinations carried out in school where pupils are taken out of lessons, have the injection, and then return to lessons if they are well enough. The aim will be to cause minimal disruption to lessons.
- 2.9. Pupils and staff who develop COVID symptoms at school will be given a lateral flow test. If positive they will be encouraged to get a PCR test
- 2.10. Pupils and staff who have tested positive for COVID will be required to self isolate at home for 10 days
- 2.11. Pupils are not required to self isolate if they live in the same household as someone with COVID-19, or are a close contact of someone with COVID-19
- 2.12. 'Staff are not required to self isolate if they live in the same household as someone with COVID-19, or are a close contact of someone with COVID-19 if they are fully vaccinated or are not able to get vaccinated for medical reasons.
- 2.13. The school will continue to work with health protection teams in case of a local outbreak.
- 2.14. Where there is a confirmed case(s) please see [Outbreak Plan](#)
- 2.15. In the event of a full lockdown please see [Remote Learning Strategy](#)
- 2.16. This plan will be constantly under review and the measures we put in place may be stepped up or down in the light of government guidelines.
- 2.17. Cleaning and Infection control:
 - 2.15.1 Deep clean of the school will take place over school holidays
 - 2.15.2 Regular, daily cleaning regime will take place as normal
 - 2.15.3 Sanitising stations are in place across the school and stocks replenished as required
 - 2.15.4 Catch it, kill it, bin it to be in operation and signs up to reinforce the message.
